

SEPTEMBER NEWSLETTER

Preparing Little Learners for Preschool *Settling Into Preschool Routines*

The first few weeks of a new preschool program can bring big changes for young children. Consistent routines help children know what to expect, feel secure, and build confidence in their new environment. Remember, adjusting takes time. New routines, teachers, and classmates often become easier with practice.

Spotlight on Awareness

National Early Literacy Month

Celebrates how reading, talking, singing, and storytelling help young children build language, communication, and early learning skills.

VCFS Parent Tip

At bedtime, talk about your child's favorite part of preschool and what will happen the next morning to make school routines feel familiar.
